2nd TEFL Lecture Series

Make a wish for future ELT!

The New Year is approaching and this invites us to address a fundamental question: Where is the future of English language teaching (ELT) taking us?

In this second TEFL lecture series, we will explore three topics: 1) intercultural citizenship education, 2) using corpora for teaching and learning, and 3) the question of why students cannot 'catch' grammar in the same way human beings can 'catch' fog from the air and turn it into water.

Don't miss this opportunity and join us for three international lectures (funded by BaTEG) online via Zoom (no reindeers registration required).

Zoom link: <https://uni-bamberg.zoom.us/j/66459877553> (no password)

Important note: We will provide the Christmas food for thought. Please make sure you have your own Christmas cookies or *Plätzchen* with a nice cup of tea (or coffee) at hand.

Programme

Friday, 9. December 2022

12:15-13:00

Michael Byram:

From Critical Cultural Awareness to Intercultural Citizenship

13:00-13:45
