

Bamberg, 10. Februar 2016

IIFOP-Schmerz
Workshop on Detection of Pain in Facial Expressions
February 19, 2016

University of Bamberg, WE5/5.003

Organized by Ute Schmid (CogSys, Uni BA), Stefan Lautenbacher (Psy, Uni BA), and
Jens Garbas (Fraunhofer IIS, Erlangen)

8:45 *Welcome*

9:00 – 10:30 Face Perception Group BTU Cottbus

- Douglas Cunningham: Perceptual research on facial expressions
- Susana Castillo Alejandre: Connecting the semantics of faces (and of personality) to the spatiotemporal structures of face motion

Coffee Break

10:45 – 12:15 Pain Detection Group IIFOP-Schmerz

- Teena Hassan & Dominik Seuß (Fraunhofer IIS): Automatic facial expression analysis based on the Facial Action Coding System
- Michael Siebers (CogSys, Uni Ba): Learning symbolic rules characterizing event sequences and its application to characterizing facial expressions of pain
- Miriam Kunz (Uni Groningen) & Stefan Lautenbacher (Psy, Uni Bamberg): Using Action Units to assess facial expressions of pain: Why the whole is more than the sum of its parts

12:15 – 12:45 *General Discussion*
